

# FAQs About Boarding at Chrissy's

(Frequently Asked Questions)

**1. What are the requirements for dogs staying at Chrissy's?** All dogs must have written proof of current vaccinations (Rabies, DHPP, Bordetella), written proof of a clean fecal exam THAT INCLUDES TESTING FOR GIARDIA (within the past 6 months; yearly after enrollment), and be on some form of Flea, Tick, and Heartworm preventatives. If you present a Certificate of Health from your veterinarian, it must give a detailed listing of each vaccination your dog received. **We do not take aggressive dogs.** Your dog should be people and dog friendly, and relatively free of food or toy aggressions. Dogs over 7 months of age must be housebroken. We require all dogs to visit us at our facility (done by appointment) prior to their stay so we can evaluate temperament and determine whether or not we think the dog would be a good candidate to stay at Chrissy's.

**2. Why does a staff member have to meet my dog prior to staying?** Meeting a dog prior to its stay with us is a vital and necessary part of ensuring a safe environment for all guests where this unique type of boarding is concerned. Keep in mind that **Kennel-Free boarding is not ideal for all dogs**, but we will do our best to properly analyze each candidate. We evaluate such things as temperament, behavior, and aggression. We realize that all dogs are individuals and can act up or not be on their best behavior during the meeting, but our staff members are trained to look for specific items, so your dog is not expected to be "perfect" upon presentation.

**3. What is the general chain of events after a Chrissy's staff member meets my dog?** In most cases, at the time you visit us with your dog, the dates you requested are only pencilled in our appointment book. When you get home, read through the paperwork and if you were given an Estimated Breakdown form, check for accuracy (especially that we have the correct dates you are going away and phone numbers where we can reach you). If you decide you would like to leave your pet with us while you are away, it's important to call us and let us know for sure so we can pen your dates in to firm them up. If you fail to call or at least let us know for sure at the time of your visit, you may lose the spot. After your dates are firm, you will receive a confirmation call anywhere from 1 to 3 days prior to your dog's scheduled arrival date to let you know we are expecting your pet.

**4. What exactly do I need to bring at the time I drop my dog off?** You will need to bring your deposit (1/2 of the total listed on the "Estimated Payment Breakdown" form), all signed paperwork (Enrollment Form, Medical Authorization Form, and Policies & Requirements Form), and written proof of vaccinations / written proof of a clean fecal exam. Don't forget your dog's food. You can also bring your dog's crate or bed/pillow for sleeping. You can send over toys, but please don't bring any valuable or meaningful items, as we cannot be responsible for toys that get lost or destroyed. Remember to administer flea/tick/heartworm medications prior to your pet's arrival (please do this at least 5 days before your dog's scheduled arrival date). If your pet's next dosage will fall on a day the pet will be with us, bring the next dose of flea/tick/or heartworm medication and we will administer it for you (no extra charge). Do not assume we will just "let it go" if your pet is missing any of the required vaccinations - especially the Fecal and Bordetella, which is not one of the usual vaccinations dogs receive at their yearly check-up (you must specifically ask your vet for this vaccination). We take vaccinations very seriously and reserve the right to refuse any dog not fully vaccinated, so please... **MAKE SURE YOUR PET IS FULLY VACCINATED AND HAVE PROOF!**©

**5. Do I need to bring food, bowls, or treats for my dog?** Bringing food is now mandatory. Bowls and treats are optional. We have many different types and sizes of bowls, but if you feel your pet will be more comfortable using his/her own bowls, then bring them along. Glass or ceramic bowls may get broken or damaged, so it's best to only bring plastic or metal bowls. Be sure to pack enough food for the entire time your dog will be with us PLUS EXTRA. We cannot tell you how many times our clients have been unexpectedly delayed, flights cancelled, etc., due to bad weather or some other unforeseen reason. We do have food on hand if you run out, but stomach upset can occur if an animal's diet is suddenly changed, so we try to keep animals on the same diet for their entire stay. When bringing food, there's no need to bring the entire 50 lb. bag of dry dog food for an overnight stay (yes, some people do this, haha!). A smaller plastic container or Ziploc bags with each meal measured out works best. If your dog is on a special diet, we will feed whatever you provide per your instructions. Treats are another optional item. If you send treats along with your pet, we will only give your pet the treats you bring. Please only send treats that your dog is used to. Now is not a good time to try new treats your dog has never had before (may cause severe stomach upset), and if your dog is not supposed to get any treats at all due to a sensitive stomach, please make sure you clearly state that on your dog's Enrollment Form.

**6. What is a typical day at Chrissy's like?** A typical day at Chrissy's varies a great deal. Much depends on the time of year, your dog's personality, the other dogs that are staying here, etc. Obviously we try to keep the dogs well exercised so they are happy and tired at the end of the day, which means a good night's sleep for everyone. Because there is rare confinement, it's a pretty safe bet to say your dog will be moving around & playing for most of the day, whether it's with other dogs, toys, humans, or a combination of all. Weather permitting, we try to exercise the dogs outdoors as much as possible. On any given day, most dogs are socialized with all of the other dogs on premises unless there is a problem with certain dogs not getting along. In those cases, the dogs that don't get along will be kept separate from each other and are exercised separately as well. Outside runs are only used for dogs that enjoy that type of outside leisure time or for holding pens during interviews, drop offs, and pick ups. In Winter, we still try to keep play time for the most part outdoors depending on temperature and breed of dog - we just take more indoor breaks. Dogs are also permitted to play in the snow - again depending on outside temperature and breed of dog. Most dogs love the snow! ☺. But some don't, so we try to customize each dog's outside and inside time to what they seem to like. Dogs are typically not caged or crated during the day unless it's feeding time, an owner specifically requests it, or for certain safety reasons. Our building is climate controlled - heated in Winter and air conditioned in Summer.

## Chrissy's Castle of Critters

(FAQ's - Page 2)

**7. Is staff monitoring the animals overnight?** YES. We believe animals should also be monitored during the overnight hours; therefore, any time there are animals staying in our building overnight, there is a human on hand to make sure everyone is okay. Chrissy's Castle of Critters prides itself on safety, and no dogs are left in our building alone unattended overnight.

**8. Where will my dog go to the bathroom?** We encourage all dogs to empty outside, so our dogs are taken outdoors many times throughout the day (puppies are taken out more often - as much as once an hour depending on the age of the dog). All adult dogs are expected to hold their bathroom at least 4 hours, and those who continue to 'mark' or relieve themselves inside the facility despite being taken out will be re-evaluated at the conclusion of their stay to determine if the dog will be allowed back.

**9. Where will my dog sleep and what sleeping items should I bring?** Sleeping arrangements vary a great deal with this type of boarding, and much depends on your dog as well as the other guests we have at that time. All dogs not from the same family are typically separated at night, but there are times we do "group" sleepovers - again depending on the personalities of the dogs being boarded. There is human supervision 24/7, so even if dogs are sleeping in a group, someone is always on hand monitoring the animals. To ensure that your dog is as comfortable as possible, you should basically try to bring whatever your dog sleeps in/on at home. If your dog is used to being crated at night, bring the crate as well as all bedding you keep inside of it (check with us first to see if we have a comparable crate available for the time frame your dog will be with us which saves on having to cart yours back and forth). If your dog is not crated at night but sleeps on a pillow or a blanket, bring that item. Anything you feel would make your pet sleep more comfortably should be brought along. Depending on how many dogs are here at the time, we try to put each dog in a suitable place, whether it's in a crate, in a pen, on their bed or blanket, etc. so they sleep well. All puppies are crated at night for safety.

**10. General Rules** The General Rule is there IS no general rule. Each dog is an individual with specific needs and we try to make each dog as comfortable as possible while in our care and do whatever works for that particular dog. There are, however, some basic rules we try to stick to: We do not feed dogs together (all dogs are separated at meal times), Dogs are not left alone together unless, as stated in the sleeping section above, the dogs are from the same family and sleep in the same pen overnight. Although this is not a typical boarding facility and our dogs are running around as if they were in a home environment, we do not "feed dogs from the table"(even if you do ☺) and we do not give human food to any dogs unless we are specifically instructed to do so by the owner and the owner provides the human food.

**11. Can I call or e-mail while I'm away to check on my dog?** Absolutely!☺ Call any time during normal business hours and speak to a live person to get an update, or if you call after hours or leave a message on the answering machine, all calls within the United States will be returned within a few hours that day or the next morning. Unfortunately, we cannot return calls overseas, but if you arrange a date and time you'd like to call us for an update before you leave the country, we will be by the phone at the agreed-upon time to give you an update on your pet. We also give e-mail updates if that is a more convenient way for you to check on your pet: [Chrissycastle65@aol.com](mailto:Chrissycastle65@aol.com) or check for pictures in our albums section.

**12. Are there any additional costs involved - like to give medication or for treats/attention/extra walks?** No extra costs - our daily price includes all aspects of taking care of your pet, whether it's giving medication, giving special attention, playing with your dog, several walks per day, etc. However, if you call and request us to pick up forgotten items or your pet is in need of medical attention while you're away, additional costs will apply and owner is expected to pay all extra costs involved at time of pickup unless other arrangements have been discussed.

**13. What can I do to make my dog's first boarding visit a stress-free one?** A great way to help ensure your dog will be less stressed the first time he/she stays with us is to bring the dog for a short visit prior to your longer trip. We usually want to have your dog for a doggie day care session or an overnighter prior to your longer visit so your dog becomes familiar with our staff, with our facility, and becomes accustomed to an environment with other dogs. The stay is a shorter one so the second time your dog is brought here when you actually leave for a trip, your dog will better understand that he/she will eventually be picked up again and will hopefully be less stressed. You can also do the usual things like bring your dog's bed, blanket, toy, etc. - items that are familiar.

**14. Are there specific days/times/hours that pets cannot be dropped off or picked up?** All interviews, drop offs, and pickups are done on a strict appointment basis. Since we usually have staff on duty 24/7, we try very hard to accommodate your schedule as best as we can. If you will be dropping off or picking up during normal business hours, there will more than likely not be any problems with your requested time; however, if you need to drop off or pick up during non-business hours, prior arrangements need to be discussed in detail with a staff member. Please keep in mind that pets staying at our facility sleep better the first night if they have been here for a few hours before bed time, so try to make drop-off before 6pm whenever possible on the first day. There is only one rate per day, regardless of the time you drop off or pick up your pet. The advice we offer our clients to make the most of their dollar is to drop their dog off in the morning and pick him/her up in the late afternoon or early evening. We ask that you call about an hour before you pick up your pet so we can have his/her personal items all packed up, paperwork completed, etc. which makes check out easier and faster. Payment in full is expected at the conclusion of service when your pet is picked up.

**15. Can I just drop by Chrissy's any time for a tour or visit?** Unfortunately, no. For the safety of all the animals at our facility, we cannot allow unscheduled visits. The unexpected arrival of visitors may result in one or more of our guests or a staff member getting injured. But we'd be happy to accommodate you if you call and make an appointment first!☺

**FYI:** All animals at Chrissy's are fully vaccinated at all times. The vaccination history of any animal is available upon request. Our goal is to provide a clean, fun, happy, healthy, and most important - SAFE environment for all animals we care for. We are an active member of The International Association of Canine Professionals and we are fully insured and bonded.
